### TECHNICAL SPECIFICATIONS

## PIONEER EXTERNAL MIXED RECYCLING BIN

# 130L

### FEATURES

- The Pioneer External Mixed Recycling Bin is a versatile rubbish receptacle for schools, hospitals, leisure complexes and city centres.
- Made from medium-density polyethylene, it is weather and rust-resistant, it has a dimpled surface to prevent fly-posting, and it has an impressive total capacity of 130-litres.

### Specifications

- Medium-density polyethylene construction.
- Mixed waste aperture on both sides of the bin.
- Concealed hinged door with slam-lock mechanism.
- Double-sided recycling receptacle.
- Available in 18 colours.
- Includes galvanised steel liner.
- WRAP compliant recycling graphics.
